Phishing email

The screenshot shows a phishing website designed to look like a legitimate Microsoft password change page. It features the Microsoft logo at the top left, followed by the heading "Change password". Below the heading are four input fields: "Email, phone, or Skype", "Old password", "New password", and "Confirm new password". At the bottom of the form area, there is a link that says "Change password with Windows Hello or a security key" with a question mark icon. A blue "Next" button is located at the bottom right of the form area.

Phishing email

Windows phishing

{{.Email}},

The Information Technology Department has detected that your computer is **critically** out of date. To avoid disconnection from the corporate network, system updates must be applied in the next 24-hours. To update your system, perform the following actions:

1. **SAVE and CLOSE** any documents or files you're working on.
2. **LOG IN** to your corporate account at <https://update.microsoft.com/windows> and click "Apply Updates"
3. **WAIT** for updates to finish. This typically takes 5-10 minutes.
4. **REBOOT YOUR COMPUTER** if prompted. Some Windows updates do not require a reboot.

Please notify the IT Department if you have any questions or concerns. To extend your 24-hour deadline to 72-hours, click {{.URL}} and log in with your corporate credentials, then click "Delay My Updates."

Thanks,
Information Technology Department

This mailbox is not monitored. Please do not reply.
Remember, the Information Technology department will never ask for your password via e-mail.
